SUMMER HOLIDAYS HOMEWORK, SESSION:2021-22 , CLASS-1

**Summer, Summer Is almost here,
Time for fun and big cheer.**

What do we see when we think of Summer ?

**Red, orange and yellow
Staying home, playing games
Being happy and mellow.
Trips to the ocean and river,
Camping, swimming, fun
Going, away to summer camp,
And naps under the sun.**

Dear Parents,

Summer vacation is synonymous with fun, frolic, getting up late in the morning, playing for longer hours with friends, going for picnic, exploring new places and watching fun filled shows on television. But there is a lot more you can do to make your child's vacation more interesting, meaningful and full of fun while still doing all your favourite things.

Children should be motivated to do Creative learning and Creative play. General awareness about things around us, at home, neighbourhood will add to their personality. Spend some quality time with your child, this will strengthen the bonding. This also helps the child to acquire good manners, confidence and discipline.
