

Dear Parents,

It is very important for students to develop habits of arriving on time at an early age. Arriving on time ensures that your child does not miss out on important learning activities that happen in the class early in the day.

Realizing the importance of inculcating this valuable habit in our children, your cooperation for the same is highly solicited.

Students should be in the school premises before the school starts maximum by 7:55 am in summers. The students will not be allowed to enter the school premises after the maximum time limit i.e. after 8 am sharp.
