

World No Tobacco Day was observed on May 31 2020, in SLS DAV PUBLIC SCHOOL, MAUSAM VIHAR, to highlight the risk associated with the use of tobacco and to sensitize students about it. The annual campaign is an opportunity to raise awareness to help reduce use and protect the health amongst the youth.

On this day, students conducted the above mentioned activities even during the lockdown and came up with wonderful thoughts and showcased their creativity by creating virtual posters, public service advertisements and radio jingles. The activities were organized to educate and create awareness about the bad effects of tobacco on health.
