### FOR CLASS -X

Dear Parents,

As part of Systemic Reforms, National Curriculum Framework 2005 recommends that Subjects such as Mathematics could be examined at two levels; standard and higher level. As per this recommendation, Board has already offered two levels of examinations in Mathematics at secondary level since session 2019-20.

Keeping this in view, the students can select any one level for CBSE session 2021

- The two levels of Examination will be held for the subject of Mathematics in the Board examination for Class X in February/March 2021 and the same shall not be applicable to the internal assessment in class X.
- A student will have the right to choose between the two levels of Examination - **Mathematics Standard or Mathematics Basic**. The syllabus, subject teaching and internal assessment for both the levels of examination would remain the same.
- **Mathematics Standard** would be the existing level of examination and will be meant for students **who wish to opt for Mathematics at Senior Secondary level**.
- **Mathematics-Basic would be for students who are not keen to pursue Mathematics at higher levels.**
- **Students can make a choice according to their aptitude and abilities.**
- A student will have the right to choose between the two levels of Examination at the time of submission of list of candidates(LOC) by the affiliated school to the Board online.
- It is mandatory for all students to inform the school authorities about their chosen option. The information must be forwarded at the time of registration to the **CBSE board**.
- A student, who qualifies the Mathematics- Basic, shall be given an option to appear in Mathematics- Standard at the time of Compartment exams as per norms of the Board, in case he/she changes his/her mind to pursue Mathematics as Senior Secondary level.
